

THE NEW INVERTER

FOR A NEW
ERA OF POWER
MANAGEMENT

As you'd expect, intelligent power management is what we do.

Our latest Power Conversion Component Kit, The Inverter ONE, brings together the new MP range of inverters to optimise and manage BESS systems.

This fully scalable power component package, includes both BESS200 controller and electrical interface components for very simple, reliable, BESS manufacture.

INVERTERS 40 - 250KW

UP TO 2MW IN PARALLEL SYSTEMS

Alternators | Controllers | Battery Chargers | Inverters
